Subject: Plans and estimates- 2 6-inch r.f.guns on Conanicut Island, R.I.

U. S. Engineer Office,

Newport, R. I., May 7, 1901.

Brig. Gen. G. L. Gillespie,

Chief of Engineers, U. S. Army,

Washington, D. C.

General:

In compliance with Department letter of the 23rd ultimo, E. D. F. M. No. 39090, I have the honor to forward herewith plans and estimates for the construction of emplacements for two 6-inch rapid-fire guns, on Ordnance Department pedestal mounts, on Conanicut Island, near Jamestown, Rhode Island. It is proposed to build these emplacements adjoining the emplacements for two 15-pdr. rapid-fire guns as indicated on the tracing forwarded with my letter of October 3, 1900, and which was approved by the Chief of Engineers under date of October 25, 1900, E.D.F.M.No.36997. In this case, nothing is to be gained by mounting two guns in an emplacement, thus reducing the development of front, and because of the uncertainty of the effect of the blast of one gun on the cannoneers of the adjoining gun, it is deemed advisable to use single gun emplacements and the plans are thus prepared, following in the main the typical plan. The site is of rock, has very little earth covering and the magazines will therefore be protected largely by the natural ground. All the material for the battery, including the embankment, will have to be purchased and hauled from the point of delivery at the dock at Fort Wetherill to the site of the battery.

As there is on hand the sum of \$30,000 allotted under

date of November 9, 1900, E. D. F. M. No. 35393, if these plans and estimates are approved an additional allotment of \$5,000 will be necessary.
